The Provinces.

The Prince de Joinville is at Quebec.
Great preparations continue throughout the Canadas, for the reception of the Prince of Wales.

Counterfeit American quarter dollars, tolerably well executed, are now in circulation in St. John, N. B.

On the night of the 10th June, several fine buildings on St. George's Square, Toronto, were destroyed by fire. The loss was very heavy. During the progress of the fire, several riots took place among the firemen, and prisoners were rescued from the police.

The Quebec Chronicle says that common laborers about the harbor, who last winter were starving and living on alms, now export no less than \$3 a day for work about the ships, owing to the very large number of arrivals and a limited supply of laborers, combining among themselves. Our contemporary adds that many ship-masters so imposed upon will not come again.

Sir George Simpson, who left Lachine some time ago for Red River, fell sick at St. Pauls, Minnesota, and was obliged to return again. The party who left with him continued their journey.

Judge Cabot, an eminent lawyer of Quebec, died June 1st.

A new steam flouring mill, with three run of stones, has just been completed on the Elevator Wharf, at Kingston. It is owned by Messrs. E. Barry & Co., and is fitted with all the recent improvements.

The sentence of death, passed upon Hugh McDonald, at the Barrie (U. C.) Assizes, for the murder of his wife, has been commuted to imprisonment for life; he was removed to the Penitentiary on Monday last.

A young lady named Adams, sister of the Rev. E. Adams, of the village of Drayton, U. C., committed suicide by cutting her throat with a razor. The deceased had been for some time in a despondent state of mind, brought on through bad health.

Richard Blong, son of Mr. Blong, butcher, of Toronto, and who has lately resided in Lobo, fifteen miles from London, was lately struck by lightning while in the field, and instantly killed.

A Mr. Hill, an old and much respected farmer in Beverly, U. C., came to his death by having drank a small quantity of ley for syrup, which he was in the habit of drinking.

David Edgett, a citizen of St. John, N. B., was drowned on the 30th May, by falling from a scow near the Custom House.

The Montreal Gazette, of the 14th June, says that five mails from New York city have been lost during the previous two weeks. A rigid inquiry is called for. Roguery on the part of officials is thought to be the cause.

THE MACPHERSONS.—A correspondent of the Caledonian Mercury combats the idea that the founder or father of the Clan Macpherson was the son of a priest. He says: "In a tradition which I have met with in my rambles among the antique, it is stated that he, or rather they, for there were two brothers, were only nominally so. According to this tradition, a very large and fierce breed of wild cats were at that time common in Scotland; and two young men, brothers, in passing through a wood, found an aged priest attacked by one of them, which was hanging savagely at his throat. Having driven off the animal and killed it, the good father gave them his blessing; and in the fervor of his gratitude called them his children. They were afterwards known as the 'sons of the parson,' and were the founders of the Clan Macpherson; and hence a wild cat, rampant, formed the memorial ensign of that family."

DEATH OF A PIONEER CALIFORNIA PRINTER.—The craft in this State will truly regret to learn that William H. Bugbee died, shortly after reaching home, in Worcester, on the 7th June. Mr. Bugbee came to this State in 1849, a passenger on the Edward Everett. He proceeded to the mines, where he remained but a few months, and returned to this city. Here he held responsible situations in the craft until 1857, when he accepted the foremanship of the Sacramento Union. The duties of this berth were so arduous and sedentary as to superinduce consumption, of which disease he died as above stated. Mr. Bugbee was a delegate from California to the National Typographical Union, which was held in Memphis, but he did not live to reach there.—S. F. Morning Call, 14th.

Mr. Bugbee was well known to most of the craft in this town, and was held in high esteem.

BLACK TO BE HAULED OVER THE COALS.—The Washington correspondent of the Cincinnati Gazette, writing under date of June 6th, speaks as follows of General Black and his connection with California land claims:

Attorney-General Black is in a bad fix. You will have noticed that the Constitution, with a view to divert attention from the damaging exposure of the Covode Committee, has been making a great blow about the discovery of frauds connected with the California Land Claims, giving Black the credit of discovering these frauds. To-day, it turns out, if the evidence I have seen can be trusted, that Black himself has been mixed up with two of these fraudulent claims, and has used his official position to prevent the Supreme Court acting upon them, for which service he has received a large pecuniary consideration. The matter will be examined by the Covode Committee.

A very good lady had taken great pains to establish an infant or children's school upon a large scale, and had sent into the country a person who happened to be one of the Society of Friends, to collect money and apple trees for the school garden. He called upon the narrator, and told him his double purpose. "Ah!" said my friend, "apple trees!—a very proper thing, and the poor little children will have nice apples to eat." "No, friend," quoth Starch, "not to eat." "Oh! for puddings, then! better still—a very good plan." "No, 'tisn't for puddings, neither, nor pies." "No," said my friend; "what then?" "It is to teach them to resist temptation!"

A private soldier of the name of Walter, now serving in the military train at Woolwich, has lately received the handsome present of £10,000 from a brother in Australia, who emigrated some years ago a very poor working man, but is now possessed of £150,000. He has sent £20,000 home to be equally divided between two brothers, one of whom is the above-named soldier.—John O'Groat Journal.

A TEXT.—"My brethren," said a good old backwoods preacher, "I'm gwine to preach you a plain sarment that even wimmen can understand. You can find my text in the five verses of the two-eyed chapter of the one-eyed John." It was some time before it was perceived that he meant John I, chapter 2.

The strength of the British army is 228,854 men of all ranks, exclusive of the local Indian army, known as the East India Company's service, but including those regiments of the line now serving in India.

The Victoria Incorporation Bill.

Dan. O'Connell once made the remark that he never saw an act of Parliament that he could not drive a coach-and-four through; and if such is the character of Imperial statutes, what would that gentleman say could he but re-visit the earth, and take a glance into this abortion of a bill, the product of the maiden effort of the protégé of Sir Hugh Cairns? Six mortal months have been consumed in the construction of this wonderful bill, and at last, after wearying the patience of the entire community with waiting for the promised boon, the precious concoction is laid before the Assembly, a standing monument of legal imbecility and utter ignorance of even the first principles of municipal legislation. It is called "A Bill." We object to giving the thing so dignified an appellation; let it be called, as it really is, "CARY'S FIZZLE." The whole thing is a mass of absurdities from beginning to end—indefinite where it should be clear; so loosely drawn up that any fifth-rate lawyer in the colony could tear it to pieces as if it were so much rotten paper, and so full of legal infirmities that a much less skillful Jehu than the late Dan. O'Connell could trot a whole battalion of mounted horse straight through it at a 2:40 pace. Such a measure might answer well enough for the class of beings whom Mr. Selim Franklin represents; but it will never receive the approbation, or answer the requirements, of the intelligent population of the city of Victoria.

We purpose, for the edification and amusement of our readers, to lay before them a few of the leading and most objectionable features of this most inimitable production.

1. In section 3, the qualification requires a candidate for Mayor or Councillor to be a British subject, rated on the municipal assessment roll of the city, in respect to freeholds, £50; leaseholds, £100; or if partially of one and partially of the other, then in like proportion. This is neither here nor there, for any one who may be a candidate will have that amount and more. But here follows a provision so decidedly objectionable, that we would fain hope no one could be induced to vote for it. It is, that at the first election, the qualification shall be, instead as above stated, freehold £150; leasehold, £300; or in like proportion, if the party qualifies on partly freehold and partly leasehold property. Now, we would ask, why make any such an absurd and unnecessary distinction between the first and subsequent elections? That there is some *terior* object in view will not be doubted by those who know the bill-maker. But this is not the most objectionable feature in this section. Will our readers credit the fact that it is proposed to do away altogether with the assessment roll, and extend the qualification to any and all persons holding property in the colony of the requisite value? Or in other words, a landholder in Nainaimo, without one farthing's interest in Victoria, is allowed to come here and contest for a seat at our Council Board, and if elected, to qualify on property at the other side of the Island, or the other side of Jordan. We venture the assertion that a precedent for such a provision cannot be adduced in any country on the face of the globe, where municipal institutions have an existence.

2. In section 5, power is given to parties holding property in two or more wards, to vote in each of the wards for a Councillor, but in only one for Mayor. This is a most objectionable clause, inasmuch as it gives a controlling power to a few wealthy landholders, in the election of Councillors, which will be found most prejudicial to the general interests of the community. No man should be allowed to vote in more than one ward, either for Councillor or Mayor; otherwise power will become centralized in the hands of a few, and the result will be a system of extravagance, chicanery, favoritism, misgovernment, and petty despotism. In fact, in the present state of the town there should be no wards at all.

3. In section 14, provision is made for the trial of contested elections. All matters in dispute are to be referred to a functionary styled the "reviser of votes" and that important individual decides the question—and from his dictum there is no appeal. Here is centralization of power again, and in an odious form. Again, "the mode in which each trial shall be conducted, shall be regulated by such rules as may, from time to time, be made, signed and published, by and under the hands of the municipal

reviser of votes and the Chief Justice of Vancouver Island." In other words, the "mode" of procedure in such cases will be "regulated" to suit the nature of the case and the individual popularity of the parties concerned.

4. Section 15 defines the order of proceedings of the Council; and here is put on the cap-stone to the municipal monument of absurdities. Before any meeting of Council can be held, notices must be posted up three clear days, at least, before such meeting; one on the door of the place of assembly, one on the door of the magistrate's court, and one on the door of Christ church; such notices to be signed by the Mayor, or by three members instead of the Mayor, and the business to be transacted at such meeting must be stated in said notices, and no other business shall be transacted at such meeting, except that which is specified in said notices. If this is not legal tinkering, we do not know what to call it. Here is a city just merging into being, with work enough to be done, and absolutely required, to demand the unremitting and constant attention of the Mayor and Council, every day in the week for a year to come, and yet Mr. Cary, in the plenitude of his transcendental wisdom, ties them down to a silly and absurd system of restrictions by which they can effect comparatively nothing, notwithstanding so much is required. Out of 313 working days in the year, but four are allowed for the transaction of genuine business! Is not colonial experience wanted?

We are pleased to learn that there is some prospect of quite a different bill being passed from that proposed. Mr. Waddington has prepared one. It is a perfect municipal code. It is founded on the Canada municipal system, which was lauded but a few weeks ago in the London Times as being far in advance of any other in the world. Too much credit cannot be given to Mr. Waddington for his untiring exertions to draw up a bill for the incorporation of Victoria that would reflect credit on any country. We shall take occasion to instance its peculiar merits. In the meantime, it is sincerely hoped that the praise accorded to it will be followed by the united support of all parties.

THE PACKED JURY.—The proprietor of the Gazette came out yesterday morning with a card, detailing the reasons which induced him to seek a place on the coroner's jury summoned to inquire into the cause of the death of Jas. McCabe, alias Simonds. We had hoped that Mr. Nias could have shown "clean hands" in the matter. But we were mistaken. The weak attempt to palliate or excuse his action has only sunk him lower in the estimation of the public. He denies having expressed an opinion as to the guilt of the prisoner before going on the jury. Coroner Dickson says that several respectable gentlemen requested that he (Nias) should not be placed on the jury list; and one gentleman of well known veracity declares that he heard him express an opinion before the inquest was called. Mr. Nias denies having been a friend of Scelling. Why, then, his apparent attempt to shield him from punishment? Had Mr. N. been actuated by correct and praiseworthy motives, he would have asked leave to absent himself from the jury-room, after the charge was first made by Messrs. Clink and Duncan, before any witnesses had been examined. The coroner had the power to allow him to withdraw, and, we are sure, would have used it, had he been asked to do so. The very fact that when asked to sign the verdict of the jury, which stated in effect that wilful murder had been committed, he refused, goes a long way to prove his prejudice in favor of the prisoner. When the jury returned with the verdict, only two of their number declined signing it—one on the ground that he was opposed to capital punishment, and the other because he did not believe a murder had been committed. The latter was Mr. Nias himself, who assigned as a reason that a mutual quarrel had taken place, and that the prisoner, in his own defence, had killed his assailant. The coroner asked him if he believed the evidence of Robinson; he replied that he did. The coroner then stated the law in the premises, and from that evidence he was bound to find a verdict of wilful murder against the prisoner, as it was clear they were not upon an equal footing in the quarrel, and that the prisoner was in no personal danger. After some further remarks from the coroner, Mr. Nias reluctantly signed the verdict. There is another point full as strong: Look at the Gazette of yesterday. Nearly every particle of evidence bearing against Snelling is carefully excluded; while that tending to exculpate him is given at length. The whole matter looks very bad for Mr. Nias; and the public will not be satisfied with his lame defence of yesterday. Let any unprejudiced per-

son peruse the report of the Colonist, and compare it with that of the Gazette, and he will not fail to perceive that the latter is a one-sided statement. This is the first attempt to pack a jury ever made in this country; let it be the last.

VICTORIA GAS COMPANY.—This company, after disappearing for a time from the legislative stage, has appeared again with new dresses, determined, if possible, to please the people by only asking for a four-teen years' monopoly to supply the town with gas. The apathy apparently manifested, and the strong allies in the government, no doubt induces the projectors to imagine that they will succeed in their pet scheme—tantamount to a very large tax on everybody, without hope of getting rid of it. It is a heartless scheme. It's no use calling it anything else; and if the towns-folk wish to nip this pernicious speculation in the bud, let a remonstrance be drawn up to both branches of the Legislature forthwith, and signed by everybody, opposing the establishment of a monopoly even for a day. Moths may like light; but we fear that if they buzz much more about the gas light, and buzz improperly, they'll get severely scorched.

CHARGED WITH SHOOTING AN INDIAN.—Sergeant Otto Weihe, on Thursday arrested a man named R. X. Lewis, who is charged with having shot and badly wounded "Johnson," the Hydah Indian on Wednesday last. The Indian says he was in the act of taking a cask of whiskey from the brush, belonging to Lewis, when he was shot by the latter, the ball passing through his left arm, and into the left breast, glancing off on the breast-bone. Lewis says the Indian stole his pistol and leveled it at him; that he regained possession of it and then shot him as described. He was bound over in the sum of \$2,000 to appear to-day for examination before Judge Pemberton.

J. W. McKAY, Esq.—We learn that this gentleman, with his charming bride, left last evening for Fort Kamloops, British Columbia, to take charge of that fort for the Hudson Bay Company. Mr. McKay was a member of the first Assembly of this colony. When an Assembly is organized in the sister colony, we should feel happy to learn that he became a member of it also. Few persons in the Company's service have made more warm friends among the newcomers than the subject of this notice. His unvarying politeness secured him the respect and friendship of all; and whilst all are pleased with his promotion, yet they cannot but regret his departure.

Over ten thousand grey heads have been restored to their original color within the last year, by the use of FISH'S INFALLIBLE HAIR RESTORATIVE. COLONIAL THEATRE.—Long before the rising of the curtain on Thursday evening, the theatre was filled with a large and respectable audience. The accomplished young actress, Miss Clara Robinson, appeared for the first time before a Victoria audience, and won much applause by her Mary Mortimer in "Naval engagements." Miss Clara is very original in her style of acting, and will prove very attractive. Mr. J. B. Robinson as Admiral, in the same piece, pleased everybody; and Mr. Beatty acted the young naval officer in love to perfection. Mrs. Beatty as Mrs. Pontifex received much praise. Mr. Burton's Short was first rate, he acting the grasping innkeeper to the life. Miss Susan's ballad, "Three Grains of Corn," was sung in a most charming manner, and at the conclusion, she was encored and literally showered with bouquets. In the Scotch dance she was also encored, and pelted with flowers. In the afterpiece of "Betsey Baker," Miss Susan as Betsey fairly captivated the vast audience. Mr. W. H. Robinson's Crummy was excellent; and Mr. J. B. Robinson, as Mouser, threw everybody into convulsions of laughter. Last evening the "Maid of Munster," and the "Youth who never saw a Woman," were performed to another crowded house, and the worthy troupe won fresh laurels by their excellent acting. This evening another fine bill is offered.

THE INQUEST.—The coroner's jury on the body of James McCabe, alias Simonds, returned a verdict on Thursday morning to the effect that deceased had come to his death from a wound received at the hands of George Snelling, and that the same was inflicted with malice aforethought. The foreman stated that the jury had debated as to the propriety of recommending the prisoner to mercy, but had arrived at the conclusion that such a recommendation did not come within their province. Coroner Dickson bound the witnesses over to appear at the next Assizes, and the prisoner was committed to jail to await his trial.

BARGE COMPANY.—A company has been formed for the purpose of constructing a number of large barges, to run in connection with steamers from Fort Hope to Yale. The capital stock is \$15,000. The barges will be large and adapted to carrying both passengers and freight.

SANDWICH ISLAND LEATHER.—A small invoice of Sandwich Island leather was brought by the barkentine Constitution to Monsarrat & Almon. It is very fine in grain, and seems to be equal to any in the market. The price is about the same as that asked for States leather.

SOLD.—The mules and asses brought from the Sandwich Islands by the barkentine Constitution, have been sold to parties who design using them as pack-animals in British Columbia. They were sent up last evening on the Wilson G. Hunt.

EXPRESS TO ROCK CREEK.—Ballou's Express is now run to the new gold mines on Rock Creek, in the Similkameen country, via Fort Hope. We learn that it is the intention of Mr. Ballou to establish a weekly line between that place and Hope.

RUFFAL BEATING.—James Berry, employed at Mason's brickyard, Beacon Hill, beat an Indian in a most shocking manner on Thursday, for which luxury he paid £3 yesterday in the police court.

PUMPKINS.—Lovers of pumpkin pies have now an opportunity of indulging their appetites. A quantity of Sandwich Island pumpkins are in town, and are selling at the low price of four bits each.

WONDERFUL.—That an insolvent gazetteer should be opposed to the "credit system," that being the principle most wanted to keep his paper in circulation.

Whelan, the policeman, shot during the fight with "Captain John," at the city prison, some time since, will be out again in a few days.

Mrs. G. Chapman, late of the Colonial Theatre, in this city, is playing at the Olympic Theatre, San Francisco.

TREASURE SHIPPED.—Wells, Fargo and Co., shipped per steamer Oregon, on Wednesday last, \$50,749 in dust.

Attention is called to the card of Dr. Adams, dentist, in another column.

House of Assembly.
THURSDAY, July 26, 1860.
House met at half-past three o'clock. Present—Speaker Helmcken, and Messrs. Coles, Cooper, Waddington, Cary, Franklin, McDonald, Foster, and Crease.
Mr. Cary presented a bill for the payment of the Civil List, amounting to £3,200, as soon as the revenue arising from the sale of lands, be given over to the colony.
Mr. Waddington gave notice of a bill to amend the act of 1859, for the registration of voters.
The bill providing for the more speedy administration of justice, was passed to a third reading.
The amendment of the Executive Council to the Fire Bill was taken up. The amendment is in clause No. 9, and provides that the bill shall only be in force for one year from the date of its passage. The bill as amended was passed by the House.
The House adjourned to Friday July 27th, at 3 o'clock.

FRIDAY, JULY 27, 1860.
House met at half-past three o'clock. Present—Speaker Helmcken, and Messrs. Foster, Green, Cooper, Waddington, Franklin, McDonald, Cary, Talmie, and Southgate.
The House went into Committee of the Whole on Mr. Franklin's Bill for the Improvement of the streets of Victoria, Mr. Waddington in the Chair.
The bill provides for the raising of a fund of £2,000 by taxation, to be paid by the whole city, at the same time as the colonial revenue is collected. Certain streets are to be graded and macadamized under the direction of Joseph Austen, B. W. Pearce and others, who shall act as commissioners. The commissioners shall be empowered to make contracts for the improvement of the thoroughfares; the chain-gang is to be employed to do the work required; it is also proposed to build a cistern at the corner of Yates and Government streets.
Mr. Helmcken was not certain the House had the power to appoint the commissioners.
Mr. Waddington—There are many reasons in favor of it; but the question of roads or no roads should not hasten our action. The propriety of appointing commissioners is questionable. The bids should be sent in; the lowest bid chosen, and the Executive should appoint a general superintendent.
Mr. Foster—If you allow this bill to go through the House, it is tantamount to laying out the Incorporation Bill. After the work is done, you will find the colonial surveyor will come forward and say that he is not responsible for work already done; the grade will in a short time be altered, and all the improvements will go by the board. A great difference at present exists as to the true grade, and we may have all our work to do over again.
Mr. Cooper believed the bill, in a modified form, should be passed. Give the House the selection of the streets to be graded; and let the Governor have control of the funds.
Mr. Cary—If the House agrees to pass the bill in a modified form, His Excellency should be first petitioned to fix the grade.
Mr. Franklin—I should think the appointment of Mr. Pearce, the Colonial Surveyor, as one of the commissioners, is a sufficient guarantee of the correctness of the grade.
Mr. Waddington instanced cases in San Francisco where the grade was altered as many as three times. The engineers have declared that the present grade is three feet above the proper one.
After some further discussion, the Committee, on motion of Mr. Cooper, rose, and the House again went into Committee on the bill to provide for the speedy administration of justice in minor criminal cases; after the passage of three clauses of which, the Committee rose and reported progress.
After the committee had risen, Mr. Cary asked what had become of Mr. Franklin's Address to the Prince of Wales? Messrs. Cooper and Waddington demanded that it should be introduced at once, which threw Mr. Franklin into such a rage that he declared they were "men utterly devoid of every sentiment of loyalty." After considerable "chaffing," Mr. Franklin promised to bring in the address at the next meeting.
House adjourned to Monday next, at 3 o'clock.

Dr. De Cugis assures us that instead of intending to assault officer Phillips, he thought that he was doing a service in trying to stop a fight. Such being his intent, the fine was severe.

DR. ADOLPHUS' ANTI-RHEUMATIC CORDIAL
—AND—
Health Restorative

IS THE MOST VALUABLE AND UNSURPASSED remedy for Rheumatism and Gout to be found in the world, or known at present. The discoverer of the above medicine does claim its infallibility in all cases of Rheumatism and Gout—when used according to direction—and does offer a reward of five thousand dollars to any medicine that does supersede it, and is entirely vegetable. The Doctor is enabled to offer the above reward, on account of his having used the above medicine for ten years in his practice, and has never known it to fail in the cure of the most protracted cases of Rheumatism and Gout, and withstood all known remedies to the profession. Doctor Adolphus is known and rightly celebrated throughout the State, for his cures in Rheumatism, Gout and Chronic Diseases, and has only to the continued urgent efforts of his patients, and through the desire to help them who are not enabled to see him personally, or to spend a fortune to get rid of the disease, which they have contracted in the pursuit of their daily calling; only this has been able to persuade the Doctor to give the above medicine to the public, and at such terms that every suffering one should be able to reap its benefits.

As a Health Restorative its value supercedes all the mineral wealth and riches of California, and is creating a revolution in the whole treatment of disease throughout the world.

In secondary and tertiary Syphilis, Scrofula, Enlargement of the Glands, Dropsy, and All Nervous and Cutaneous Diseases, and the whole train of Chronic Diseases, which withstanding and battle the skill of the most excellent and learned physician in the world; in Chronic Diseases whose very name is a terror as well to the physician as to the patient, this medicine has proved to be superior to any in existence, and has cured in so short a time that they appeared like being abolished by magic influence, and in fact a few more such discoveries, and druggists will not need to keep a lot of useless medicines on hand, whenever they are prescribed once in a ten score they have lost through time their properties in their value did reside. If there was actually any in them.

Take this medicine when you have a cold, and it will make you temper free.

Take this medicine when your urinary and absorbing organs are disordered, and it will act on your kidneys—it penetrates every part of your body, searches even the most remote and secret recesses of your system, and removes the disease located there—it restores healthy action and gives tone to every organ in the human body—therefore it has rightfully deserved the name it bears: HEALTH RESTORATIVE.

The Doctor, who is adverse to all patent medicines, wishes it to be understood that the above medicine is no such thing; but that he has, through the introduction of this medicine with its treatise and directions for use, made every sufferer to be his own physician in the above named diseases.

Thinking it for my duty to follow the mode of quacks, by appending certificates of physicians or private persons, which is too well known can be had for certain remunerations, applications of friends, or by the mode of boring a man full of death for even the most worthless trash, I will therefore leave it to them in want of money to inquire personally of the men who have been cured by my medicines of the above diseases, and who can be found in almost every city and village throughout the State. I consider such personal conviction far superior to certificates of persons that are far from being known to them in want of medical aid.

But should any one care for written testimonials or certificates regarding the cures performed by this medicine, they might call at my office, and I will show them certificates of true merit, which have been sent to me voluntarily, without applying for them, or by boring individuals to get them.

To satisfy the most scrupulous of men, also as a guarantee to those that have not had the opportunity of knowing the Doctor by reputation or personally, I have added to every bottle of the Anti-Rheumatic Cordial, the certificate, under oath, of one of the most celebrated analytical chemists in the United States, that there are no minerals nor poisons contained in this medicine, although it is a very powerful medicine, and has a very strong action on the human system, which it necessarily must have, to overcome the action of disease of such malignant character.

DR. ROSENBAUM'S CELEBRATED STOMACH BITTERS

IS THE BEST REMEDY ever yet manufactured for the cure of all Diseases, caused by a disordered state of the Stomach and Bowels.

Test them on your Constitution, and go on your way rejoicing.

Dyspepsia, Indigestion, Constipation, Fever and Ague.

And other similar maladies, yield at once to the beneficial influence of this excellent Medicine. Try them. Test them on your Constitution, and go on your way rejoicing.

CAUTION.
Owing to the unexplained demand, for these Bitters, some unprincipled parties have endeavored to counterfeit them. The genuine ROSENBAUM have the name of N. B. JACOBS & CO. branded on each cork, and their signature on each label. Beware also of a worthless article, called ROSENBAUM'S Bitters, put up in this city. Its external appearance is very much like the true Rosenbaum, but it is useless as a remedial agent, and has only been got up to prey on the reputation attained by Rosenbaum's Bitters. For sale everywhere.
